

Studio Key Sleeve

- **Durable and Reusable Design**
- **Works Well in Both Film and Video Shoots**
- **Patent Pending**
- **Covers Wires and Set Pieces**

Keyable Sleeve For Special Effects Professionals

Whether your studio is set up for green or blue, reversible Key Sleeve has you covered.

Studio Key Sleeve works great for temporarily covering valuable light booms and stationary poles.

Blue/green screen was originally invented as a film technique to separate the actors and composite them over another background. The reason both green and blue are used because they are the least prominent colors in our skin tone. The goal in using a green or a blue screen is to isolate the subject.

Following the same concept, Techflex engineers have designed STUDIO KEY SLEEVE (SK), a reversible, bright blue/green sleeving, which is perfect cover-up for wires on your set. During film editing, you can easily key-out the green and blue colors, so you will be left with just your subject without any background or wires hanging around and set pieces.

Studio Key Sleeve is made of durable, two sided vinyl, with blue on one side and green on other, and it has hook and loop for quick and easy installation. Our sleeving is thick enough not to let the light pass through it, and also protects your cables against unwanted moisture.

Nominal Size	Part #	Wall Thickness	Hook & Loop	Standard Spool Put-Ups	Available Colors	Lbs/ 10'
				Spool Length		
2"	SKN2.00BG	.048"	1"	10'	Blue/Green (BG)	2.25
