Antenna System

- Carrier Frequency Range: UHF 630 ~ 928MHz
- 700 selectable frequencies make it easy to set up multiple system configurations and to avoid interference frequencies.
- Diversity technology ensures the reception quality.
- Clear status display including 5-segment AF and RF LED meter.
- Easy-to-read color LCD shows channel, frequency and volume status.
- Integrated charging function for cost-saving and environmental protection.
- Durable plastic chassis with 1/2 rack design.
- Squelch adjustment.
- Balanced XLR connector and unbalanced 1/4" jack audio outputs.
- TNC-type connectors provide connection to the supplied antennas or to coaxial cable used with an antenna divider, antenna boosters or removable antennas. < UD-9A>
- FCC, CE , RoHS Conform.
